APICe Projects ........................................................................................................................................................................ 3
APICe Projects

Research in APICe is typically supported as well as promoted by the involvement in several research & industrial projects, either international or national/local. In the last years, a number of projects have seen the involvement of people from APICe, and have produced a huge variety of scientific and technical results. This Projects space in the APICe space is meant to record projects and the related activities and results.
