

Exercise 1

Create an html with the form shown in the following figure:

QUANTITY	PRICE	TOTAL
	SUBTOTAL	
	TAX - 17.5%	
	GRAND TOTAL	

Calculate

In particular the form allows the user to insert number in each **text** element, as shown in the following figure:

QUANTITY	PRICE	TOTAL
23	12.00	
4	34.50	
44	3.00	
	SUBTOTAL	
	TAX - 17.5%	
	GRAND TOTAL	

Calculate

Then, a script as to be added in order to calculate the total and subtotal by clicking the **button calculate**, as shown in the following figure:

QUANTITY	PRICE	TOTAL
23	12.00	276.00
4	34.50	138.00
44	3.00	132.00
		0.00
		0.00
		0.00
		0.00
		0.00
		0.00
		0.00
	SUBTOTAL	546.00
	TAX - 17.5%	95.55
	GRAND TOTALL	641.55
