

Objective:

This is the first meeting of IEEE Italy Section with Italian Industries with the objective to inform all participants of the initiative that IEEE Region 8 (Europe, Africa and Middle East) and IEEE Italy Section is promoting in favour of industries. Moreover, the final discussion it is time for brainstorming in order to gain new ideas and initiatives of common interest.

PROGRAM

IEEE Italy Section - Action for Industry Meeting

8 settembre 16:45 – 18:30

16:45-16:50	Introduction (Chair: P. Erratico)	5 min
16:50-17:05	Afl in R8 (Marios Antoniou)	12 min+questions
17:05-17:20	Afl by Italy Section (E. Cardelli T. Tambosso)	12 min+questions
17:20-17:35	The STM experience (D. Pau)	12 min+questions
17:35-18:30	Discussion (Moderator: P. Erratico)	

Topics of the discussion:

- What the Big industries would like to see?
- What competencies are required by the big industry to sustain growth, innovation and competition?
- How can IEEE ease connection between students and PhD with industry?
- Which items are of interest for Start-up and SME? Any special initiative required?
- Standards: which fields are of interest of Italian industry? Who is interested to contribute to influence and design them?
- Training and education: IEEE offer a lot of webinar, we assume they are well known. Is the Italian context asking for something specific/proprietary?

Afl = Action for Industry
